Skills

Languages

- Python, C/C++, Java, Javascript, HTML/CSS, C#, bash

Frameworks

- Node.js, jQuery, AngularJS, Django, Flask, WAMP

Dev Tools

- Git, Jira, RabbitMQ, API web services

Network/Security

- OAuth 2.0, TCP/IP, UDP, SSL/TLS

Work Experience

Workday

Jun. 2017 ~ Sept. 2017

Systems Development Engineer Intern

- Developed custom Slack applications integrating with public enterprise software APIs to improve internal user experience (Node.js, Python, RabbitMQ, MySQL)
- Built backend controllers for database manipulation & data sanitation of domains and IP addresses submitted by users in an MVC application (C#, ASP.NET, XML)
- Wrote wrapper classes and error handler for PagerDuty API to be utilized in an API Proxy (Java, Mulesoft ESB)
- Experience collaborating directly with network, systems, security, engineers and other software developers to quickly deploy applications

UCLA Luskin IT

Jan. 2017 ~ Present

IT Student Consultant

- Assisted graduated students with AD, remote login, and network issues
- Managed Windows/Mac hardware and software installation for lab users
- Helped troubleshoot professors' laptops before/during class presentations to ensure a smooth user experience

UCLA Course Readers

Sept. 2016 ~ Jan. 2017

Content Editor

- Managed the digital database of 14,000 course readers and kept record of old/new requisitions
- Assisted walk-in requisitions from over 300 UCLA professors in a fast-paced work environment
- Contacted publishers such as Harvard Business and Penguin Random House for copyright permissions

Projects

SmashTime

- Web-app utilized by school-wide gaming tournaments to send out text messages to players based on real-time queries (Python/Django/SQLite; Challengo, Twilio)

Personal webpage

- Organizational tool for personal accomplishments and future goals (HTML/CSS, jQuery, AngularJS, Bootstrap; MAMP)

Dynamic calendar

- Interactive calendar for scheduling and planning events (HTML/CSS, jQuery, AngularJS)
